College Board, AP Classroom

Throughout the year we will use tools and resources on the College Board's web site called AP Classroom. To use those features you need to create an account on their site if you don't have one already, then add our class using a code.

To sign up, go here:

https://myap.collegeboard.org/

Use your real personal information, this is an official account.

When prompted, use join code: XYZ9MV to add our class.

There is no assignment for you there yet, I just wanted you to create the account if you didn't have a College Board account yet and add our class.
