New additions, second semester
Thursday 1/6/22

First of all, welcome. Glad to have you in class.

Second, here is some housekeeping:

- Please read the syllabus, let me know if you have any questions
- Please get a parent or guardian to sign the safety contract, then you also sign it, and please return it to me soon.

Third, some work for this week:

- Please do the assignment called "Inkscape Intro" on the Google Classroom. Read the PDF, open Inkscape, and make it happen.

  A side note on Inkscape: we upgrade Inkscape mid-semester, so the screen shots in the assignment will be slightly different from what you see on your computer screen.

  Please ask me for help, or ask another classmate for help, or ask our TA for help. When you are done with this, please turn it in on the Google Classroom.

- Then please do the assignment Inkscape #1 also on the Google Classroom.

- Then, please do "First laser project" on the Google Classroom. This is to create small item that we will go cut out on the laser cutter. For this one you turn in the project on the Google Classroom but you also email the project to the laser cutter email address: laser.makerlab@wscuhsd.org (the email address is different in the assignment PDF, again, we changed the email partway through the semester. Tell me when you are done with this and we'll go cut it out on the laser.

- Finally, for this round, please do the Tinkercad assignment "Tinkercad, 3D modeling software, lessons and first project", here's a link: https://classroom.google.com/c/Mzc2OTQ2NTQ2NTEz/a/Mzg2ODUwODMyOTAz/details

  You'll need to create an account in Tinkercad, a free 3D modeling website we use.

Please ask for help when you need it. And again, welcome aboard!

Mr. Hays
