

Logo 5: dominant graphic

Due 4th period, Monday 11/30/20 by 5pm

3rd & 7th periods, Tuesday 12/1/20 by 5pm

Today we're creating the last set of your logos, ones with text and a dominant graphic.

Logo 5: dominant graphic: Make 3 examples of your logo that each use one or more fonts but **with a graphic image that is the main feature**. There still needs to be text, but the graphic image or images should be the main thing people will be noticing. You may copy and use images from the Internet, obviously.

Save all three logos in a single Gravit file, one above the other, not too far apart. Your three logos should fit on a default page in Gravit and all be on the page.

Name your file Logo 5 yourname. Turn it in to the Google Classroom for this assignment.

See examples below:
