Tinkercad Name Box
Project Make/Make 2
Due: 3rd period: Tuesday June 1, 2021 11:05 am
   7th period: Tuesday June 1, 2021 2:50 pm
         4th period: Thursday June 3, 2021 11:05 am

Please note, these are due at the end of the period, not midnight. It's the last day of school, let's get this work done on the Zoom and on time!

Your task today is to create a box with your name and some fun things in it. Here are the requirements:

The box's outer dimensions must be 80 by 40 by 20.

Take a 75 by 35 by 20 hole out of the insides like this:

Then, put your name on the inside in bright yellow, then also decorate the insides in some interesting/fun way. Your decorations must not be too complicated, but they also must have at least 10 parts and multiple colors. Here is what I made:

When you are done, turn in a share link, and also send me a Zoom chat of your share link, and stick around as I add your name to our giant board of names that I am putting together. If you are in person today, email me your share link after turning it in and then tell me that you are done. We're going to make a giant wall of the names of everyone who was in our class this year. I'll post a screen shot of it when it's all done.

Thanks for a great year, everyone. I hope you have a safe, wonderful, healthy summer!
