

Suitcase sticker assignment (Make 1 and Make 2)
Due Tuesday (4th and 6th) Wednesday (3rd)

Design a sticker in Inkscape as follows:

- The sticker is 11 inches wide by 8 inches tall. You will need to change the document size in Document Properties under the File menu.
- It is a one color sticker that sends a cheerful and happy message to the students in Uganda where our international solar suitcase is going to be placed this summer.
- Imagine what students in Uganda might find fascinating about us and consider incorporating one or more of those things in the sticker.
- Include "From Analy High School, Sebastopol, California" in the sticker in text that is not too small to successfully weed.
- There is a 3 inch wide by 2 inch tall blank spot in the center of the sticker (there are bumps in the lid at that spot, a sticker can't really be placed over that middle part, unless that is a solid piece of vinyl that overlaps on all sides.)

I'll be picking the one we actually make. Everyone is required to make a sticker Inkscape file and turn it in. Do not email it to the vinyl cutter, we'll only be cutting out one. The student whose design is chosen gets a Guayaki.

The suitcase looks like this below. We're making a sticker for the blank lid on the inside.
