

Make a cool sticker

Due: Thursday 3/16, Friday 3/17

Make a sticker that is fun and interesting and that fits inside of a 3 inch square.

You will be graded on how well you make the sticker, so be thoughtful about it.

Requirements:

- Sticker fits within 3 x 3 inches
- There is some text
- There is an image

Please turn off fill and set all strokes to .1 mm red. For the text, you must choose "Object to Path" to make the vinyl cutter able to see your text. Don't do that until you have the text just how you want it.

Save and close your file. Email your file to the vinyl cutter email address. Also turn the file in on the Google Classroom.

Then go over and cut out your sticker, then weed it, then put on transfer tape and show it to Mr. Hays to get credit.
