

May the 4th be with you assignment

In honor of May the 4th, Star Wars Day, make something that celebrates Star Wars the movie franchise. You can make a sticker, a 3D print, a laser cutting, a CNC project, or even just a really cool drawing on paper. Whatever you decide to do, get it done in class today. Show me when you are done to get credit. Keep your projects under 3 by 3 inches.
